BOOKS

[*Altered Genes, Twisted Truth: How the Venture to Genetically Engineer Our Food Has Subverted Science, Corrupted Government, and Systematically Deceived the Public.*](#)

Steven Drucker, attorney, 2015.

[*GMOs: What's Hidden in Our Food \(Part One\)*](#). Michele Jacobson, certified clinical nutritionist, 2014.

EDUCATIONAL INSTITUTIONS

[*Genetically Modified Foods*](#). The University of Utah, 2015.

[*Genetically Modified Foods - UMD*](#). Curtis Cloaninger, et al. University of Maryland, n.d. PPT slides. Search included 2013.

[*Collected resources on GMOs*](#). Professor Parrott. The University of Georgia, 2014.

GOVERNMENT

[*Questions & Answers on Food from Genetically Engineered Plants*](#). FDA, 2014.

[*Genetically Engineered Crops in the United States*](#). Jorge Fernandez-Cornejo, et al. USDA, 2014.

[*Restrictions on Genetically Modified Organisms: United States*](#). The Law Division, Library of Congress, 2015.

NEWS

[*U.S. GMO Crops Show Mix of Benefits, Concerns - USDA Report*](#). Carry Gillam. Reuters, 2014.

[*USDA To Certify Non-GMO Foods With New Label*](#). Allison Aubrey. NPR, May 15, 2015.

ORGANIZATIONS

[Frequently Asked Questions on Genetically Modified Foods from The World Health Organization](#), 2015.

[FAQs about GMOs from Consumer Reports](#). *Consumer Reports*, March 2015, reprint. Also [search results](#) on GMOs at Consumers Union.

VIDEOS

[GMO Controversies - Science vs. Public Fear](#). Borut Bohanec. TEDx on YouTube, 2014. “As Chair of the Department of Agronomy, head of the Department of Genetics and Biotechnology at the Biotechnical faculty, University of Ljubljana, Borut Bohanec possesses a broad overview of classical and modern techniques of plant breeding. For many years he has been following advances in the field of genetically modified organisms and wishes for better understanding of the issue among the general public.”

[The Gene Revolution - The Future of Agriculture](#). Dr. Thierry Vrain. TEDx on YouTube, 2013.

“Thierry Vrain retired 10 years ago after a long career as a soil biologist and ended head of a department of molecular biology running his own research program to engineer nematode resistance genes in crops. In his retirement career as a gardener he learned five or six years ago how the soil ecosystem really functions and have been preaching ever since. He finds himself with a good knowledge of genetic engineering technologies surrounded by people in fear of being hurt by the food they eat. He found that he cannot ignore them anymore and has joined the campaign to educate consumers about the potential health problems reported in the recent scientific literature.”

SEARCH TIPS

Help find credible sources by modifying your search by type of source.

gmo site:edu

gmo site:gov

gmo site:org

gmo site:edu +.ppt This will bring up PowerPoint slides. Some may be slow to load.

gmo site:org +.ppt
